The mission of Tandis Food Industries Group is to create a healthy production chain, organic farm and industrial and mechanized livestock farms, which has been able to produce natural, healthy and best quality products for your precious tables with the most advanced and up-to-date equipment in its production process. Provide.

By developing the transportation fleet, creating job opportunities and creating employment for thousands of people, as well as reducing the costs, Tandis Company declares that the health of its compatriots is the most important priority of Tandis Food Industry Group and to achieve this important goal He has not given up on any effort.

We never substitute quality for quantity because we believe that:

1- The health of the product production chain should start from the health of animal feed. 2- The production of healthy milk should be based on the standards of the world and in accordance with the recipes of the Food and Drug Organization. 3- It is mandatory to use the newest and most up-to-date equipment in the production line of products. 4- Receiving the golden seal of food safety for quality and customer orientation is a seal of approval for the implementation of a standard process and compliance with all of the above; It is the reason for the welcome of dear customers from Tandis products.
